CUMULATIVE PRODUCTIVITY SUMMARY (December 2025)

Awarded \$1,459,528 in external funding as PI

\$234,000 additional internal funding as PI

\$924,844 additional funding as co-investigator

\$10,050 additional funding as a mentor for trainees

Authored 111 international or national conference abstracts

59 additional abstracts at regional or local conferences

Published 63 research articles ([My PubMed Bibliography](#))

19 as first author

12 as corresponding author

Cited 622 times ([NIH iCite](#))

30 for i10-index ([Google Scholar](#))

18 for h-index ([Google Scholar](#))

Impact of research articles ([Altmetric Attention Score](#))

2 in top 0.5%

8 in top 5% (cumulative)

*relative to >29 million articles

EDUCATION

Doctor of Philosophy in Applied Physiology

University of Delaware, Newark, DE

Aug. 2015 - May 2019

Bachelor of Science in Exercise Science

Salisbury University, Salisbury, MD

Aug. 2011 - May 2015

POSITIONS

Assistant Professor

Department of Health, Nutrition, & Food Sciences

Anne Spencer Daves College of Education, Health, & Human Sciences, Florida State University

Affiliated with: Institute for Successful Longevity; Institute for Sports Sciences and Medicine

Jul. 2022 - present

Instructor (Research Track)

Department of Applied Clinical Research

University of Texas Southwestern Medical Center

Institute for Exercise & Environmental Medicine, Texas Health Presbyterian Hospital

Mar. 2022 - Jun. 2022

Postdoctoral Fellow

Mentor: Craig G. Crandall, PhD

Department of Internal Medicine

University of Texas Southwestern Medical Center

Institute for Exercise & Environmental Medicine, Texas Health Presbyterian Hospital

Jul. 2019 - Mar. 2022

Graduate Research Assistant

Mentor: William B. Farquhar, PhD

Department of Kinesiology and Applied Physiology

College of Health Sciences, University of Delaware

Aug. 2015 - Jun. 2019

Graduate Teaching Assistant

Department of Kinesiology and Applied Physiology, University of Delaware

Aug. 2015 - May 2018

Supplemental Instructor

Department of Health and Sport Sciences, Salisbury University

Aug. 2014 - May 2015

Undergraduate Research Assistant

Mentor: Scott A. Mazzetti, PhD

Laboratory for Human Performance

Department of Health and Sport Sciences, Salisbury University

Jan. 2013 - Jun. 2015

EXTERNAL FUNDING

Pending

American Heart Association Predoctoral Fellowship (25PRE1354834-A1)

Role: Mentor (PI: Thomas Bissen, M.S.)
Project Title: Novel Respiratory Muscle Training for Improving Cerebrovascular Function and Immune Status in Adults with Obesity
Dates of Award: 1/1/2026 - 12/31/2027
Project Goals: To determine 1) whether obesity is associated with reduced cerebrovascular function in young adults and 2) whether inspiratory muscle strength training improves cerebrovascular function in adults with obesity.
Direct costs: \$70,676
*15% score

Leidos Subcontract - Naval Submarine Medical Research Laboratory (NSMRL-230808-FSU)

Role: Principal Investigator
Project Title: Hyperbaria and Muscle Sympathetic Outflow
Dates of Award: 6/1/2023 - 5/31/2025 (year 3 option pending)
Project Goals: To determine how hyperbaria affects muscle sympathetic outflow in humans.
Direct costs: \$28,506 (\$43,900 in total)
**Y1 exercised 3/26/2024, Y2 exercised 11/22/2024, Y3 pending (direct: \$19,246)*

Current support

United States Department of Agriculture (USDA) - Agriculture and Food Research Initiative (AFRI) SEED grant

Role: Co-Investigator (PI: Andrea Lobene, Ph.D.)
Project Title: Improving Vascular Health Using Nutrition Education Aimed at Increasing Potassium Intake versus Reducing Sodium Intake
Dates of Award: 10/1/2025 – 9/30/2027
Project Goals: To compare increasing potassium intake versus decreasing sodium intake via dietary counseling for improving diet quality and vascular function among adults.
Direct costs: \$194,805 (\$300,000 in total)

United States Department of Agriculture (USDA) - Agricultural Research Service (ARS) - Pulse Crop Health Initiative Research Project

Role: Co-Investigator (PI: Ravinder Nagpal, Ph.D.)
Project Title: The effect of regular lentil and chickpea intake on gut microbiome and metabolic health in healthy young adults: A pilot randomized clinical trial.
Dates of Award: 8/1/2024-7/31/2027
Project Goals: To determine the effect of regular lentil and chickpea intake on healthy young adults' gut microbiome and metabolic health.
Direct costs: \$272,767 (\$300,044 in total)

National Watermelon Promotion Board – Nutrition Research Program

Role: Co-Principal Investigator (Other PI: Ravinder Nagpal, Ph.D.)
Project Title: Effect of Daily Fresh Watermelon Consumption on Gut and Cardiometabolic Health in Young Adults with Overweight and Obesity
Dates of Award: 7/1/2024 - 6/30/2026
Project Goals: To determine whether daily fresh watermelon consumption improves gut and cardiometabolic health in young adults with overweight and obesity.
Direct costs: \$73,645

American Heart Association Career Development Award (23CDA1037938)

Role: Principal Investigator
Project Title: [A New Time-Efficient Respiratory Training to Improve Blood Pressure and Vascular Function in Adults with Obesity](#)
Dates of Award: 4/1/2023 - 3/31/2026
Project Goals: To determine whether inspiratory muscle strength training improves blood pressure and vascular function in adults with obesity. (scored 14%)
Direct costs: \$210,000 (\$231,000 in total)

NIH NHLBI Mentored Career Development Award to Promote Faculty Diversity in Biomedical Research (K01HL160772-A0)

Role: Principal Investigator
Project Title: [Time-Efficient Inspiratory Muscle Strength Training as a New Approach to Lower Blood Pressure, Improve Respiratory Function, and Reduce Exertional Dyspnea in Adults with Obesity](#)
Dates of Award: 7/1/2022 - 6/30/2027
Project Goals: To determine whether inspiratory muscle strength training reduces blood pressure, improves respiratory muscle function, and reduces exertional dyspnea among adults with obesity.
Direct costs: \$693,342 (\$748,809 in total)

Previous Support**Compound Solutions CoreBiome® Research Grant**

Role: Co-investigator (MPI: Michael J. Ormsbee, Ph.D. & Brett L. Cross, M.S.)
Project Title: Tributyrin Supplementation: Time Course and Efficacy on Health and Performance
Dates of Award: 4/1/2024 - 3/31/2025
Project Goals: To determine the time course of microbial and health effects of CoreBiome® (glycerol butyric-ester, tributyrin) butyrate supplementation.
Direct costs: \$67,468 (\$77,588 in total)

NIH NHLBI Extramural Loan Repayment Program for Clinical Researchers (2L30HL154189-A0)

Role: Principal Investigator (Mentor: Robert C. Hickner, Ph.D.)
Project Title: Time-Efficient Inspiratory Muscle Strength Training as a New Approach to Lower Blood Pressure, Improve Respiratory Function, and Reduce Exertional Dyspnea in Adults with Obesity
Dates of Award: 9/1/2023 - 8/31/2024
Project Goals: To determine whether eight weeks of inspiratory muscle strength training lowers blood pressure, increases inspiratory muscle strength, and improves physiological and perceptual responses during acute aerobic exercise in adults with obesity.
Award Amount: \$8,742

Western States Endurance Run Research Committee Funding

Role: Co-Investigator (PI: Gregory J. Grosicki, Ph.D.)
Project Title: Acute and chronic effects of ultramarathon participation on vascular health
Dates of Award: 11/2022 - 7/2023
Project Goals: To determine the acute and chronic effects of ultramarathon participation on vascular health.
Award Amount: \$25,000

Department of Defense - United States Army (W81XWH-22-C-0004)

Role: Co-Investigator (PI: Craig G. Crandall, Ph.D.)
Project Title: Sublingual sufentanil in the pre-hospital setting: Effects on hemorrhage tolerance
Dates of Award: 2/1/2022 - 8/31/2023
Project Goals: To determine whether sublingual sufentanil reduces tolerance to simulated hemorrhage and alters autonomic cardiovascular regulation.
Award Amount: \$291,424 in total

NIH NHLBI Extramural Loan Repayment Program for Clinical Researchers (L30HL154189-A0)

Role: Principal Investigator (Mentors: Craig G. Crandall, Ph.D. & Chester A. Ray, Ph.D.)
Project Title: Ketamine-induced Hypertensive Episodes: Adverse Central and Peripheral Neurovascular Actions
Dates of Award: 9/1/2020 - 8/31/2022
Project Goals: To determine whether low-dose ketamine impairs autonomic cardiovascular function in healthy humans.
Award Amount: \$9,041

NIH NHLBI Individual Postdoctoral Fellowship (F32HL154559-A1)

Role: Principal Investigator (Mentor: Craig G. Crandall, Ph.D.)
Project Title: [Ketamine-induced Hypertensive Episodes: Adverse Central and Peripheral Neurovascular Actions](#)
Dates of Award: 6/1/2021 - 5/31/2024 (*relinquished 3/6/2022)
Project Goals: To determine whether low-dose ketamine impairs autonomic cardiovascular function in healthy humans.
Award Amount: \$200,946

**Declined final 27 months of funding after being promoted to faculty*

American Physiological Society Postdoctoral Fellowship

Role: Principal Investigator (Mentor: Craig G. Crandall, Ph.D.)
Project Title: [Ketamine-induced Hypertensive Episodes: Adverse Central and Peripheral Neurovascular Actions](#)
Dates of Award: 11/1/2020 - 10/31/2021 (*relinquished 5/31/2021)
Project Goals: To determine whether low-dose ketamine impairs autonomic cardiovascular function in healthy humans.
Award Amount: \$50,000

**Declined final five months of funding for NIH NHLBI F32 starting June 1, 2021*

NIH NIGMS Research Supplement to Promote Diversity in Health-Related Research

Role: Postdoctoral Fellow (PI: Craig G. Crandall)
Project Title: Exercise in Burn Survivors
Project Goals: To determine whether thermoregulatory function is impaired in non-grafted, burn-injured skin in well-healed burn survivors.
Parent Grant: \$2,125,160 funded 8/1/2020 - 6/30/2024 (R01GM068865-13A1)
Award Amount: \$254,459 (supplement only)

**Declined 24 months of funding for NIH NHLBI F32 starting June 1, 2021*

American Heart Association Predoctoral Fellowship (18PRE33960329 - resubmission)

Role: Principal Investigator (Mentor: William B. Farquhar, Ph.D.)
Project Title: Neurovascular Responses to Mild Dehydration in Young & Old Adults
Project Goals: To determine whether short-term water restriction affects resting and reflex neural control of the circulation in aging.
Award Amount: \$54,648

**Declined 24 months of funding for University of Delaware Doctoral Fellowship (see 'Intramural funding')*

INTERNAL FUNDING**Pending****Student Technology Fee Grant**

Role: Principal Investigator
Project: Portable System for Teaching Integrated Breath-by-Breath Gas Exchange & Flow
Equipment: MGC Diagnostics Mobile Ultima PFX Cardio2 System
Funder: Florida State University
Award Period: 1/1/2026-12/31/2026
Award Amount: \$67,013

Current Support**InternFSU Split Funding Program**

Role: Supervisor
Purpose: Clinical Research Assistants (3), Cardiovascular & Applied Physiology Laboratory
Funder: Career Center, FSU
Award Period: Fall 2025
Award Amount: \$2,880

Seed Grant

Role: Principal Investigator
Project: Novel Isometric Handgrip Training to Improve Cerebrovascular Function
Funder: Council on Research & Creativity Funding Program, FSU
Award Period: 10/9/2025-10/8/2027
Award Amount: \$100,000

2025 Dean's Circle Catalyst Grant Program

Role: Principal Investigator
Project: Novel Isometric Handgrip Training to Improve Cerebrovascular Function
Funder: Anne Spencer Daves College of Education, Health, and Human Sciences, FSU
Award Period: 5/1/2025-4/30/2026
Award Amount: \$10,000

Summer Research Fellowship

Role: Mentor (student: Jason Bowden)
Project: The effects of external nasal dilator strips on sleep and cardiovascular health
Funder: Division of Research, College of Medicine, FSU
Award Date: 2025
Award Amount: \$5,000

IDEA Grant

Role: Mentor (student: Sequoia Ernst)
Project: The Role of Ventilatory Rate on Cardiovascular Responses During Eucapnic Voluntary Hyperpnea
Funder: Center for Undergraduate Research and Academic Engagement, FSU
Award Date: Summer 2025
Award Amount: \$1,000

Student Technology Fee Grant

Role: Principal Investigator
Project: Non-invasive Portable System to Teach Brain Blood Flow Physiology
Equipment: Multigon Transcranial Doppler System with Robotic Monitor Probes & Capnometer
Funder: Florida State University
Award Period: 1/1/2025-12/31/2025
Award Amount: \$49,000

InternFSU Split Funding Program

Role: Supervisor
Purpose: Clinical Research Assistants (2), Cardiovascular & Applied Physiology Laboratory
Funder: Career Center, FSU
Award Period: Spring 2025
Award Amount: \$1,800

Clinical & Translational Science Award (CTSA) Scholar Career Development Award

Role: Co-investigator (PI: Kyle A. Smith, Ph.D.)
Project Title: Evaluating a Time-Efficient Breathing Intervention to Improve Immune Function and Psychological Well-Being in Individuals Living With Obesity
Dates of Award: 8/1/2024 - 7/31/2026
Funder: Florida State University
Direct costs: \$213,000

Interdisciplinary Planning Grant

Role: Co-Principal Investigator (60% credit)
Project: Does Aging Augment Acute Kidney Injury and Inflammatory Biomarker Responses to Dehydration and Ambient Heat Stress?
Funder: Institute for Successful Longevity, FSU
Award Period: 5/14/2024-12/31/2025
Award Amount: \$25,000

Cardiovascular and Applied Physiology Laboratory Start-up Funding

Role: Principal Investigator
Funder: College of Health & Human Sciences, FSU
Award Period: 2022-2027
Award Amount: \$600,000

Previous Support

Undergraduate Research Opportunity Program (UROP) Research Mentor Materials Grant

Role: Principal Investigator (student: Lily Voelkel)
Project: Cardiovascular and Applied Physiology Research
Funder: Center for Undergraduate Research & Academic Engagement, FSU
Award Date: 2025
Award Amount: \$625

Undergraduate Research Opportunity Program (UROP) Research Mentor Materials Grant

Role: Principal Investigator (student: Ella Ashley)
Project: Cardiovascular and Applied Physiology Research
Funder: Center for Undergraduate Research & Academic Engagement, FSU
Award Date: 2025
Award Amount: \$625

Equipment & Infrastructure Enhancement Grant

Role: Co-Investigator
Project: Purchase of an Automated Hematology Analyzer to Enhance FSU's Biomedical Research Capabilities
Funder: Council on Research & Creativity Funding Program, FSU
Award Period: 5/1/2024-5/31/2025
Award Amount: \$17,788

First-Year Assistant Professor Award

Role: Principal Investigator
Project: Respiratory Training for Health Improvement in Adults with Obesity
Funder: Council on Research & Creativity Funding Program, FSU
Award Period: 5/8/2023-8/4/2023
Award Amount: \$20,000

Undergraduate Research Opportunity Program (UROP) Research Mentor Materials Grant

Role: Principal Investigator (student: Savannah Boutwell)
Project: Cardiovascular Responses During Exercise and Respiratory Maneuvers
Funder: Center for Undergraduate Research & Academic Engagement, FSU
Award Date: 2023
Award Amount: \$500

Undergraduate Research Opportunity Program (UROP) Research Mentor Materials Grant

Role: Principal Investigator (student: Allison Bowerfind)
Project: Cardiovascular Responses During Exercise and Respiratory Maneuvers
Funder: Center for Undergraduate Research & Academic Engagement, FSU
Award Date: 2023
Award Amount: \$500

University of Delaware Doctoral Fellowship

Role: Principal Investigator (Mentor: William B. Farquhar, Ph.D.)
Project Title: Neurovascular Regulation During Short-term Water Restriction
Funder: Office of Graduate and Professional Education, University of Delaware
Award Period: 7/1/2018 - 6/30/2019
Award Amount: \$30,000

HONORS & AWARDS

Nominee - Outstanding Graduate Teaching (2025) Florida State University	2026
Early Career Research Award Environmental & Exercise Physiology Section, American Physiological Society	2025
Impact Paper Award Most impactful paper from 2022-2024 in the <i>American Journal of Physiology-Regulatory, Integrative & Comparative Physiology</i> (PMID: 37867476)	2025
Faculty Leadership Award Division of Student Affairs, Florida State University <i>*Major contributions to service with an exemplary attitude, enthusiasm, and extending beyond job responsibilities to help students (link)</i>	2025

Nominee - 2024 Florida Undergraduate Mentor of the Year Florida Undergraduate Research Association	2025
Open Access Publishing Fund Award Florida State University Library (\$900 for PMCID: PMC11234288)	2024
Dean's Circle Research Transition Incentive Funding College of Education, Health, and Human Sciences (\$4,200)	2024
Finalist - Teaching Award for Graduate Teaching (2023) College of Education, Health, and Human Sciences Nominee	2024
FSU-CEHHS Open Access Publishing Program Award Open Access Publishing Fee (\$4,000 for DOI: 10.1007/s00421-025-05924-w)	2025
Open Access Publishing Fee (\$2,050 for PMCID: PMC12032447)	2025
Open Access Publishing Fee (\$3,000 for PMCID: PMC11964073)	2024
Open Access Publishing Fee (\$3,000 for PMCID: PMC11178300)	2023
Adolfo M. Hernández Memorial Award Outstanding Research by a Professional, ACSM Environmental and Occupational Physiology	2022
1st Place - ACSM/APS Integrative Physiology of Exercise Quiz Bowl Laboratory for Human Performance Alumni, Salisbury University	2020
ABRCMS Judge's Travel Award (<i>three times</i>) Annual Biomedical Research Conference for Minoritized Students	2020, 2021, 2022
Postdoctoral Association Travel Award UT-Southwestern Medical Center (one of seven awardees)	2020
1st Place - Graduate Student Poster Award Center for Cardiovascular Health Symposium	2018
MARC-ACSM Doctoral Student Investigator Award Finalist (<i>twice</i>) Mid-Atlantic Chapter American College of Sports Medicine Research Committee	2017, 2018
Departmental Travel Award (<i>twice</i>) Department of Kinesiology and Applied Physiology, University of Delaware	2017, 2018
Professional Development Award (<i>twice</i>) Office of Graduate & Professional Education, University of Delaware	2017, 2018
1st Place - ACSM Academic Student Bowl Laboratory for Human Performance, Salisbury University	2014 (Regional), 2015 (National)
Undergraduate Student Academic Research Award Undergraduate Student Academic Research Award Committee, Salisbury University	2014
Sea Gull Century Scholarship Salisbury University Foundation, Inc.	2014

National Conference for Undergraduate Research Travel Grant
Department of Health & Sport Sciences, Salisbury University

2014

MARC-ACSM Academic Student Bowl Finalist

2013

INVITED ORAL PRESENTATIONS

1. *Beet-ing Cardiovascular Aging*. Institute for Successful Longevity, Florida State University. March 6th, 2023. Tallahassee, Florida.
2. *Which lifestyle habits matter most for optimal cardiovascular function?* Tallahassee Memorial Hospital Metabolic Health Center - Obesity Medicine Program. September 8th, 2022. Tallahassee, Florida.
3. *Water Intake and Cardiovascular Function*. Hydration 4 Health Virtual Conference. June 22nd, 2022. Hosted in France.
4. *The Effect of Diet, Drugs, and Novel Lifestyle Interventions on Cardiovascular Function*. Center for Exercise Science Seminar Series. Department of Applied Physiology and Kinesiology, University of Florida. December 9th, 2021. Gainesville, Florida.
5. *The Effect of Diet, Drugs, and Novel Lifestyle Interventions on Cardiovascular Function*. Department of Nutrition and Integrative Physiology, Florida State University. November 18th, 2021. Tallahassee, Florida.
6. *Adults with Well-healed Burn Injuries Have Reduced Pulmonary Function for Decades After Injury*. Lamar University Research Conference. October 30th, 2021. Live Video Format.
7. *The Effect of Low Dose Ketamine Administration on Cerebrovascular Function During Simulated Hemorrhage in Humans*. Virtual Session: Cerebral Blood Flow Responses During Hemorrhage; organized by Caroline Rickards, Ph.D., and Patrice Brassard, Ph.D. July 1st, 2019. Live Video Format.
8. *Rapid Exercise Blood Pressure Responses During Mild Dehydration: Influence of Habitual Physical Activity*. University Foundation of the Andean Area, Postgraduate Exercise Physiology Program, Bogota, Colombia. Host: Cristian Yanez. April 30th, 2019. Live Video Format.
9. *The Effects of Elevated Serum Sodium Concentrations on the Exercise Pressor Reflex*. Institute for Exercise and Environmental Medicine. Host: Craig Crandall, Ph.D. December 13th, 2019. Dallas, TX.
10. *The Effects of Elevated Serum Sodium Concentrations on the Exercise Pressor Reflex*. The University of Colorado Boulder, Department of Integrative Physiology. Host: Douglas Seals, Ph.D. November 14th, 2019. Boulder, CO.

SCIENTIFIC MEETING ABSTRACTS

MENTORING

Doctoral Student Research Mentor:

Jonathan Hoch (MS student 2024-2025)	2025 - present
Thomas Bissen	2023 - 2027
Christin Domeier	2023 - 2027
Joseph Vondrasek	2023 - 2027

Undergraduate Thesis Students:

Sophia Vizoso	2024 - present
---------------	----------------

Non-thesis MS Students:

Justine Moss (current: registered dietitian, Essentia Health)	2022 - 2023
Katherine Kirk (current: Doctor of Physical Therapy Student, University of North Florida)	2022 - 2023

Medical Students:

Jason Bowden (undergraduate volunteer 2023-2024)	2024 - present
--	----------------

Undergraduate Research Volunteers:

Sequoia Ernst	2024 - present
Michael Beckett (current: student, Alabama College of Osteopathic Medicine)	2024
Pannonica Silvestri (current: MS Anesthesia, Case Western Reserve)	2023 - 2025
Alexander Rivera	2023 - present
Casandra Della Rocco (current: Lab Technician, Biofront Technologies)	2023 - present
Mary Peck	2023 - present
Jessica Cassette (current; MS Motor Learning and Control, Columbia University)	2022 - 2025

Undergraduate Research Opportunity Program Mentor:

Ella Ashley	2024 - 2025
Lily Voelkel	2024 - 2025
Allison Bowerfind	2022 - 2023
Savannah Boutwell	2022 - 2023
Jens Cuba (current: Technician, Laboratory for Synthetic Immunity, Georgia Tech)	2022 - 2023
Isabela Fernandez	2022 - 2023
Allyson May	2022 - 2023

High School Student Science Research Mentor:

Chiara G. (Edgewood High School, Merritt Island, FL)	2023 - 2024
- Senior project: nanotechnology & antimicrobial properties of coronary stents	

Doctoral Supervisory Committee Member:

William Mumby - Nutrition and Food Science (Lobene lab)	2024 - present
Cole Patoine - Nutrition and Food Science (Nagpal lab)	2024 - present
Mostafa Sabouri - Exercise Physiology (Machin lab)	2023 - 2024
Brett Cross - Exercise Physiology (Ormsbee lab)	2022 - present
Paul Baker - Exercise Physiology (Hickner lab)	2022 - 2024
Saiful Singer - Nutrition and Food Science (Nagpal lab)	2022 - 2025

Doctoral Supervisory Committee Member (External Universities):

Braxton Linder - Kinesiology, Auburn University (Robinson lab)	2022 - 2024
Caitlin Jarrard - Applied Clinical Research, UT-Southwestern (Crandall lab)	2020 - 2024

Masters Thesis Member (External Universities):

Dylan Wright - Kinesiology & Lifestyle Medicine, University of North Florida (Williams lab)	2023
---	------

Research Supervisor (Crandall Laboratory):

Zaid Mohammed - Thermal and Vascular Physiology Laboratory Intern	2021
---	------

TEACHING**Course Developer (Florida State University)**

Graduate - Advanced Exercise Physiology Laboratory (APK5139L)	2024
---	------

Instructor on Record (Florida State University)**Graduate Laboratory Course:**

Advanced Exercise Physiology (APK5139; 7 students, 7 credits total)	Fall 2025
Advanced Exercise Physiology (APK5139; 9 students, 9 credits total)	Spring 2025

Graduate Dissertation:	
(HUN 6980; 3 students, 27 credits total)	Fall 2025
(HUN 6980; 3 students, 27 credits total)	Summer 2025
(HUN 6980; 3 students, 27 credits total)	Spring 2025

Graduate Directed Independent Study:	
Basics of Grant Funding (HUN 6906; 1 student, 3 credits total)	Fall 2025
Understanding National Institutes of Health Grants (HUN 6906; 1 students, 3 credits)	Fall 2024
Writing Scientific Grants (HUN 6906; 3 students, 6 credits total)	Summer 2024
Writing Scientific Manuscripts (HUN 6906; 3 students, 5 credits total)	Spring 2024

Graduate Supervised Research:	
Mastering Laboratory Skills (HUN 6911; 1 student, 3 credits total)	Fall 2024
Mastering Laboratory Skills (HUN 6911; 3 students, 9 credits total)	Summer 2024

Undergraduate Directed Independent Study:	
Cardiovascular & Applied Physiology (HUN 4905; 1 student, 3 credits)	Summer 2025
Advanced Cardiovascular & Applied Physiology (HUN 4905; 1 student, 1 credit)	Spring 2025
Advanced Cardiovascular & Applied Physiology (HUN 4905; 1 student, 2 credits)	Spring 2024
Cardiovascular & Applied Physiology (HUN 4905; 3 students, 4 credits total)	Fall 2023

Invited Speaker (Florida State University)

Research Design & Methodology Laboratory (HUN 5802)	Fall 2022, 2023, 2024
---	-----------------------

Invited Speaker (University of Delaware)

Readings in Applied Physiology (KAAP 442)	Spring 2018
---	-------------

Teaching Assistant (University of Delaware)

Clinical Exercise Physiology (KAAP 475)	2018
Anatomy and Physiology, I (KAAP 309)	2016
Anatomy & Physiology, II (KAAP 310)	2015 - 2017
Exercise Physiology (KAAP 430)	2015 - 2016

Supplemental Instructor (Salisbury University)

Exercise Physiology (EXSC 344)	2014 - 2015
--------------------------------	-------------

Exercise Physiology Laboratory Workshop Instructor

Neumann University Athletic Training Program	2015 - 2017
Salisbury University Exercise Science Program	2013 - 2015

SERVICE TO THE DEPARTMENT

Faculty Representative for Radiation Committee	2025-present
Department of Health, Nutrition, and Food Sciences, Florida State University	

Chair, Faculty Activity Report Committee	2024-2025
Coordinated with faculty and led the development of new faculty performance assessment tools	

Co-Founder & Co-Director, F.R.E.S.H. Journal Club	2024-present
<u>F</u> SU <u>R</u> esearch in <u>E</u> xercise <u>S</u> cience and <u>H</u> ealthy Diets Journal Club	
Department of Health, Nutrition, and Food Sciences (co-founder/director Andrea Lobene, PhD)	

Director, Sandels Nutrition & Applied Physiology Laboratory Led the development and coordination of core clinical research space Department of Health, Nutrition, and Food Sciences, Florida State University	2023-present
Exercise Physiology Faculty Search Committee Member Department of Nutrition & Integrative Physiology, Florida State University	2022-2023
Student Quiz Bowl Faculty Representative Southeast ACSM Regional Meeting, Florida State University	2023
Corporate Cup Challenge (Fitness Competition) - 1st place Department of Nutrition & Integrative Physiology Faculty Team, Florida State University	2022
Graduate Studies Committee Member Department of Applied Clinical Research, The University of Texas Southwestern Medical Center	2022
Research & Clinical Direction & Growth Committee Member Institute of Exercise and Environmental Medicine, Texas Health Presbyterian Hospital Dallas	2022
Faculty Development, Recruitment, & Retention Committee Member Institute of Exercise and Environmental Medicine, Texas Health Presbyterian Hospital Dallas	2022
Trainee Program Committee Member Institute of Exercise and Environmental Medicine, Texas Health Presbyterian Hospital Dallas	2019 - 2022
Employee Recognition & Diversity Awareness Committee Officer (secretary) Institute of Exercise and Environmental Medicine, Texas Health Presbyterian Hospital Dallas	2019 - 2022

SERVICE TO THE COLLEGE

Clinical Research Program Manager Search Committee Member Anne Spencer Daves College of Education, Health, & Human Sciences, Florida State University	2025
Grants Editor Search Committee Consultant (Mock Grant Feedback for Faculty) College of Education, Health, & Human Sciences Research Office, Florida State University	2023
Judge & Moderator, College of Health & Human Sciences Research Showcase College of Health & Human Sciences, Florida State University	2023

SERVICE TO THE UNIVERSITY

Mock Study Section Reviewer Office of Research Development, Florida State University	2025
Grant Reviewer Planning Grants, Institute for Successful Longevity, Florida State University	2025
Panelist, Grant Workshop; "Discovery Days: Funding Your Vision" Office of Research Development, Florida State University	2024

Mock Study Section Reviewer Office of Research Development, Florida State University	2023
Presentation Judge Graduate Student Poster Day, Institute of Successful Longevity, Florida State University	2023
Institutional Research Board Representative Salisbury University	2014
